INLEIDING

Dit productiedossier werd gemaakt ter opdracht van het opleidingsonderdeel Webdesing II. In dit dossier vindt u alle informatie die de website zal bevatten en hoe deze eruit zal zien.

Dit dossier werd gemaakt door Tjorven Dewulf en behoud alle rechten ter voorbehoud in schoolverband.

MILESTONE 1
DE ANALYSE

WEBDESIGN II

TJORVEN DEWULF

Algemene omschrijving van de opdracht

Een agency actief in de grafische digital sector (Design-, Web- en/of Audio/Video agency). Wil aan de hand van zijn website prospecten overtuigen om een offerte aan te vragen. Voor dit bedrijf ontwerp en ontwikkel je individueel een responsive website die een creatieve oplossing biedt voor de bovenstaande p robleemstelling. Het is geen re-design van een bestaande agency, maar een statische website voor jouw eigen toekomstige agency.

Deze applicatie is bestemd voor +16 jarigen waarbij de gebruiksvriendelijkheid, interactiviteit, uitbreidbaarheid en schaalbaarheid van belang zijn.

Doelstellingen

Een eigen creative uitwerking bieden van eendenkbeeldige agency. De website moet een voorstelling geven van wat de bedoeling is van de Agency en wat de klant kan verwachten.

DE ANALYSE

Bestuderen van de concurrentie

1 Verschillende websites (agency websites) bevatten een inleiding waarbij een gallerij of een video wordt gebruikt om de gebruiker op de site te verwelkomen met het werk van de agency of mooie , verzorgde stock-foto's.

2 De bezochte websites hebben allemaal een basisgrid met aan het begin van de webpagina een segment met verschillende USP. Hier wordt de meest belangrijke info meegegeven aan de bezoeker in een korte tekst meestal in samenhang met een foto.

3 Het meest voorkomende design zijn Onepagers. Dit komt door het feit dat er zoveel mogelijk informatie in een korte tijd moet meegegeven worden. Deze bevat scrolling aan de hand van het menu en verschillende leuke overgangen en geanimeerde elementen.

WEBDESIGN II

SPECIFICATIES

ABOUT US
why?
OUR PASSION
Since we were younger , we were interested in com-puters and technologie of all kind. It was amazing how we saw all these new techniques and thing rise and become the things we use the most in today's life.
since when?
THE CODING
When we saw the amazing things everyone could make and create with these new and different things. We were intreuged by the fact that we could make our very own websites, games, and many more. so we started taking lessons in high shool.
